*Rand article from wiki

The name film originates from the fact that photographic film also called film stock has historically been the medium for recording and displaying motion pictures. Many other terms exist for an individual motion-picture, including picture, picture show, moving picture, photoplay, and flick. The most common term in the United States is movie, while in Europe film is preferred. Common terms for the field in general include the big screen, the silver screen, the movies, and cinema the last of these is commonly used, as an overarching term, in scholarly texts and critical essays. In early years, the word sheet was sometimes used instead of screen. Film in general is not a good term to refer to a long standard commercial video production since it’s ambiguous in general and therefore requires context for correct interpretation.

Fan film Main article: Fan film A fan film is a film or video inspired by a film, television program, comic book or a similar source, created by fans rather than by the sources copyright holders or creators. Fan filmmakers have traditionally been amateurs, but some of the most notable films have actually been produced by professional filmmakers as film school class projects or as demonstration reels. Fan films vary tremendously in length, from short faux-teaser trailers for non-existent motion pictures to rarer full-length motion pictures.

The Academy Awards and Golden Globe Awards modified their eligibility criteria for their 2021 editions, as they usually require that a film be screened theatrically for a minimum length of time. The Hollywood Foreign Press Association mentioned that films released via non-theatrical means such as digital would be eligible if they were scheduled to have a bona fide theatrical release in Los Angeles after March 15 with a cutoff date to be determined.343536 The Best Foreign Language Film award would similarly offer eligibility for films originally scheduled for a theatrical release in their country of origin between March 15 and a date to be determined.37 The 93rd Academy Awards would also allow films released via password-protected or transactional video on demand to be eligible if they were

originally scheduled to have a theatrical release. Once cinemas have sufficiently resumed operations, the requirement that a film be screened for at least a week would be reinstated. In addition to Los Angeles, eligible screenings would also be allowed to take place in one of five other major U.S. cities.3839
